Generated : 2026-06-01 13:31:11 UTC

Trace ID : 37335730-3f0e-406e-8340-d2b5e8e5e9e6

1 - Incident Summary

Incident ID : 37335730
Category : Memory
Severity : SeverityLevel.FATAL
Source : Kubernetes
Cache : HIT

2 - Raw Log

2026-01-15T22:14:07Z FATAL kubelet: Pod worker-api-7d9f8b-xk2q OOMKilled. Container exceeded memory limit of 256Mi. Exit code 137. Restart count: 14. Node: worker-1. Namespace: production.

3 - Classification

Category : Memory
Severity : SeverityLevel.FATAL
Summary : Kubernetes pod killed due to OOMKilled container exceeding its memory limit.
Source : Kubernetes

4 - Diagnosis

Root Cause : The worker-api container in pod worker-api-7d9f8b-xk2q exceeded its configured memory limit of 256Mi, causing the Kubernetes kubelet to terminate it with an OOMKilled status (exit code 137).
Confidence : 95%
Reasoning : The raw log explicitly states the pod was OOMKilled due to exceeding its 256Mi memory limit with exit code 137, which aligns with the retrieved playbook for insufficient memory limits.
Source Tier : llm
Used History : No
Used Playbook : Yes

5 - Proposed Solution

Explanation:

The worker-api container in pod worker-api-7d9f8b-xk2q exceeded its memory limit of 256Mi, resulting in an OOMKilled termination by the kubelet.

Steps:

- 1. Retrieve the detailed status and configuration of the OOMKilled pod to verify termination reasons.
- 2. Fetch logs from the previous instance of the container prior to being OOMKilled to identify memory spikes.
- 3. Check current memory and CPU utilization of the pod if it is running.
- 4. Increase the memory limit of the worker-api container to 512Mi to prevent OOM termination.
- 5. Monitor the rollout status of the updated worker-api deployment.

Commands:

```
$ kubectl get pod worker-api-7d9f8b-xk2q -n production -o yaml
$ kubectl logs worker-api-7d9f8b-xk2q -n production --previous
$ kubectl top pod worker-api-7d9f8b-xk2q -n production
$ kubectl patch deployment worker-api -n production -p
'{"spec":{"template":{"spec":{"containers":[{"name":"worker-api","resources":{"limits":{"memory":"512Mi"}}}]}}}}'
$ kubectl rollout status deployment/worker-api -n production
```

6 - Risk Assessment

Risk Level : RISKLEVEL.SAFE

Safe Commands (5):

```
[OK] kubectl get pod worker-api-7d9f8b-xk2q -n production -o yaml
[OK] kubectl logs worker-api-7d9f8b-xk2q -n production --previous
[OK] kubectl top pod worker-api-7d9f8b-xk2q -n production
[OK] kubectl patch deployment worker-api -n production -p
'{"spec":{"template":{"spec":{"containers":[{"name":"worker-api","resources":{"limits":{"memory":"512Mi"}}}]}}}}'
[OK] kubectl rollout status deployment/worker-api -n production
```

Flagged Commands (0):

(none)

7 - Operator Decision

Decision : OPERATORDECISION.APPROVED

Executed At : 2026-06-01T10:31:11.283614+00:00

Sandbox Results:

Command : kubectl get pod worker-api-7d9f8b-xk2q -n production -o yaml
Exit : 0
Time : 0ms

Output:

Name:	worker-api-7d9f8b-xk2q
Namespace:	production
Node:	worker-1
Status:	OOMKilled
Containers:	
app:	
Image:	app:latest

Limits:
memory: 256Mi
cpu: 500m
Usage:
memory: 241Mi
cpu: 245m
Last State:
Reason: OOMKilled
... [truncated]

Command : kubectkl logs worker-api-7d9f8b-xk2q -n production --previous
Exit : 0
Time : 0ms

Output:
2025-01-15T22:10:00Z WARN Memory usage rising: 78% of 256Mi
2025-01-15T22:12:30Z WARN Memory critical: 91% of 256Mi
2025-01-15T22:13:55Z ERROR Memory critical: 94% of 256Mi -- GC thrashing
2025-01-15T22:14:07Z FATAL OOMKilled: container exceeded 256Mi limit

Command : kubectkl top pod worker-api-7d9f8b-xk2q -n production
Exit : 0
Time : 0ms

Output:

NAME	CPU(cores)	MEMORY(bytes)
worker-api-7d9f8b-xk2q	245m	241Mi

Command : kubectkl patch deployment worker-api -n production -p
'{"spec":{"template":{"spec":{"containers":[{"name":"worker-api","resources":{"limits":{"memory":"512Mi"}}}]}}}}'
Exit : 0
Time : 0ms

Output:
deployment.apps/worker-api patched

Command : kubectkl rollout status deployment/worker-api -n production
Exit : 0
Time : 0ms

Output:
Waiting for deployment "worker-api" rollout to finish: 0 of 1 updated replicas are available...
